

Evaluating Diverse Information Sources

Today's Standard

11-12.RST.7 - Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

Cues	Notes
Credibility of sources	Credibility of sources: Evaluate the author's background, publication date, and purpose.
Integrating information	Integrating information: Combine data from various sources critically and analytically.
Comparing data	Comparing data: Identify consistencies and discrepancies between different studies.
Analyzing multimedia	Analyzing multimedia: Use videos and quantitative data to understand complex issues.
Real-world applications	Real-world applications: Apply integrated information to solve real-world problems.

Summary

Integrate and evaluate diverse information sources to solve problems by assessing credibility, critically analyzing data, and applying findings to real-world scenarios.
