

## Effective Writing Techniques

### Today's Standard

11-12.WHST.5 - Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

Cues	Notes
What are the steps in the writing process?	Steps: planning, drafting, revising, editing, rewriting.
Why is revising important?	Revising improves clarity, coherence, and quality.
What should be prioritized during editing?	Prioritize content and organization before grammar and spelling.
How can peer feedback improve writing?	Peer feedback provides new perspectives and identifies issues.
What are common misconceptions about writing?	Misconceptions: one draft is enough, editing is only grammar.

### Summary

Effective writing involves multiple drafts and revisions, focusing on content and organization before grammar. Peer feedback is valuable, and common misconceptions include the belief that one draft is sufficient and that editing is only about fixing errors.
