

Research Projects and Inquiry

Today's Standard

11-12.W.7 - Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

Cues	Notes
Research question	Research question: Formulate a clear and focused question to guide your research.
Credible sources	Credible sources: Evaluate sources based on the author's credentials, publication date, and purpose.
Synthesis	Synthesis: Combine information from multiple sources to create a cohesive understanding or argument.
Inquiry	Inquiry: Narrow or broaden your research based on the scope of your question.
Presentation	Presentation: Present your findings in a clear and organized manner, using various media if necessary.

Summary

This standard involves conducting research to answer questions or solve problems, evaluating source credibility, synthesizing information, and presenting findings effectively.
