

## Comparing Texts on Same Topic

### Today's Standard

1.RI.9 - Identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures).

Cues	Notes
What are the main similarities?	Identifying similarities helps understand common themes.
What are the main differences?	Differences highlight unique perspectives or additional information.
How do illustrations compare?	Illustrations can provide visual cues and enhance understanding.
What are the key details in descriptions?	Descriptions give detailed information and context.
How do procedures differ?	Procedures show different methods or steps for the same outcome.

### Summary

Comparing texts on the same topic helps students understand different perspectives and details, enhancing their comprehension and critical thinking skills.
