

### Connecting Events and Ideas

#### Today's Standard

2.RI.3 - Describe the connection between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text.

Cues	Notes
What is sequencing?	Sequencing is the order in which events happen.
What are signal words?	Signal words help us understand the sequence of events.
Why are some steps more important?	Key steps are crucial for the success of a process.
How do we identify main ideas?	Main ideas are the most important points in a text.
What is cause-and-effect?	Cause-and-effect shows how one event leads to another.

#### Summary

Understanding the connection between events and ideas in a text helps us see the bigger picture and improves our comprehension skills.
