

Collaborative Digital Writing

Today's Standard

2.W.6 - With guidance and support from adults, use a variety of digital tools to produce and publish writing, including in collaboration with peers.

Cues	Notes
Digital tools	Digital tools can be used for various stages of writing.
Collaboration	Collaboration involves active participation from all members.
Publishing	Publishing includes sharing work digitally.
Keyboarding skills	Keyboarding skills are essential for using digital tools.
Brainstorming apps	Brainstorming apps help in planning and organizing ideas.

Summary

This standard focuses on using digital tools for writing and publishing, emphasizing collaboration and active participation from all students.
