

Addition and Subtraction Strategies

Today's Standard

3.NBT.A2 - Fluently add and subtract within 1000 using strategies and algorithms based on place value, properties of operations, and/or the relationship between addition and subtraction.

Cues	Notes
What is the standard 3.NBT.A2?	3.NBT.A2 involves fluently adding and subtracting within 1000 using various strategies.
What are some strategies for adding and subtracting within 1000?	Strategies include using place value, properties of operations, and understanding the relationship between addition and subtraction.
What is place value?	Place value refers to the value of a digit based on its position in a number.
What are the properties of operations?	Properties of operations include the commutative, associative, and distributive properties.
How can addition and subtraction be related?	Addition and subtraction are inverse operations; understanding one helps with understanding the other.

Summary

Standard 3.NBT.A2 focuses on fluently adding and subtracting within 1000 using strategies based on place value and properties of operations. Mastery of this standard is essential for developing more advanced arithmetic skills.
