

Understanding Relationships in Text

Today's Standard

3.RI.3 - Describe the relationship between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text, using language that pertains to time, sequence, and cause/effect.

Cues	Notes
What is the main idea?	Understanding relationships in text helps in comprehending the material.
How are events related?	Events, ideas, or steps are often connected through time, sequence, or cause/effect.
What is cause and effect?	Cause and effect explain why something happens and the result.
What are transitional words?	Transitional words like 'first', 'next', 'then', and 'finally' help in sequencing.
How do you sequence steps?	Sequencing steps correctly ensures the process or story makes sense.

Summary

Understanding the relationships between events, ideas, or steps in a text is crucial for comprehension. This involves recognizing cause and effect, using transitional words, and correctly sequencing information.
