Technology in Collaborative Writing

Today's Standard

3.W.6 - With guidance and support from adults, use technology to produce and publish writing (using keyboarding skills) as well as to interact and collaborate with others.

Cues	Notes
Technology in Writing	Technology enhances all stages of writing.
Collaboration	Digital tools can support brainstorming, drafting, revising, and publishing.
Digital Tools	Online collaboration can be as effective as in-person collaboration.

Summary

Integrating technology into writing helps students produce and publish their work and collaborate with others effectively. It supports all stages of the writing process and prepares students for future academic and professional tasks.
