

## Research Projects for Knowledge Building

### Today's Standard

3.W.7 - Conduct short research projects that build knowledge about a topic.

Cues	Notes
Research	Research can be done using books, websites, videos, and interviews.
Credibility	Evaluate the credibility of sources by checking the author's qualifications and the publication date.
Short Projects	Short projects can be effective in providing clear and concise information.
Sources	Use a variety of sources to gather comprehensive information.

### Summary

This standard teaches students to conduct short research projects using various resources, evaluate the credibility of sources, and present clear and concise information.
