Comparing Decimals to Hundredths

Today's Standard

4.NF.C7 - Compare two decimals to hundredths by reasoning about their size. Recognize that comparisons are valid only when the two decimals refer to the same whole. Record the results of comparisons with the symbols >, =, or <, and justify the conclusions, e.g., by using a visual model.

Cues	Notes
Decimals	Decimals represent parts of a whole.
Comparison Symbols	Comparison symbols: > means greater than, < means less than, = means equal to.
Place Value	
	Place value: Tenths and hundredths are important for comparing decimals.
Visual Models	
	Visual models like number lines help in comparing decimals accurately.

Summary

Comparing decimals involves understanding place value and using comparison symbols correctly. Visual models can help students grasp the concept more effectively.
