

Using Technology for Writing

Today's Standard

4.W.6 - With some guidance and support from adults, use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills to type a minimum of one page in a single sitting.

Cues	Notes
Technology	Technology can be used to produce and publish writing.
Collaboration	Collaboration with others is an important aspect of using technology.
Publishing	Students should demonstrate keyboarding skills to type one page in a single sitting.
Keyboarding Skills	Digital tools like spell check and grammar check can enhance writing.
Digital Tools	Pre-writing activities are still important even when using digital tools.

Summary

This standard focuses on using technology for writing, including producing, publishing, and collaborating. It emphasizes the importance of keyboarding skills and integrating digital tools into the writing process.
