

### Research Skills

#### Today's Standard

6.W.7 - Conduct short research projects to answer a question, drawing on several sources and refocusing the inquiry when appropriate.

Cues	Notes
What is research?	Research involves gathering information to answer a question.
How to evaluate sources?	Evaluate sources by checking author credentials, publication date, and citations.
Why refine research questions?	Refining questions helps in gaining a deeper understanding and finding more relevant information.
Examples of research projects	Examples include creating presentations, writing reports, and preparing debates.

#### Summary

Research involves gathering and evaluating information from multiple sources to answer a question. It's important to assess the credibility of sources and refine research questions for comprehensive understanding.
