

## Comparing Mediums in Texts

### Today's Standard

9-10.RI.7 - Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print and multimedia), determining which details are emphasized in each account.

Cues	Notes
What is the standard?	The standard involves analyzing different accounts of a subject in various mediums.
Why is it important?	It helps students understand how information presentation varies by medium.
Common misconceptions?	Misconception 1: All mediums present information the same way. Misconception 2: One medium is always more reliable.
How to address misconceptions?	
Examples of different mediums?	Interventions include comparative analysis and evaluating source credibility.

### Summary

The standard teaches students to analyze how different mediums present information differently and to critically evaluate the reliability of each medium.
