Digital Writing and Publishing

Today's Standard

9-10.WHST.6 - Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

Cues	Notes
Digital tools	Digital tools can enhance writing by offering various platforms and functionalities.
Collaborative writing	Collaborative writing allows multiple people to contribute and edit a document in real-time.
Iterative process	Digital writing is an iterative process, meaning it can be continuously updated and improved.
Multimedia elements	Multimedia elements like videos, images, and hyperlinks can make writing more engaging and informative.
Dynamic content	Dynamic content refers to the ability to link to other information and display it in flexible ways.

Summary

Using technology in writing allows for enhanced collaboration, continuous updates, and the integration of multimedia elements, making the writing process more dynamic and engaging.
