

Comparing Groups of Objects

Today's Standard

K.CC.C6 - Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies.1

Cues	Notes
Greater than	Comparing groups of objects by counting
Less than	Using matching to see which group has more or fewer
Equal to	Understanding that size does not affect quantity
Counting strategies	Aligning objects to make comparisons easier
Matching	Building foundational skills for addition and subtraction

Summary

This standard teaches students to compare quantities by counting and matching objects, helping them understand mathematical concepts of more, less, and equal.
