

## Basic Addition and Subtraction

### Today's Standard

K.OA.A5 - Fluently add and subtract within 5.

| Cues  | Notes  |
|---|--|
| What is addition?                                     | Addition is combining two or more numbers to get a larger number.  |
| What is subtraction?                                  | Subtraction is taking away one number from another to get a smaller number.  |
| What does it mean to add and subtract fluently?       | Fluency in addition and subtraction within 5 means being able to solve these problems quickly and accurately.                    |
| What are common mistakes in addition and subtraction? | Common mistakes include thinking addition always makes numbers bigger and not understanding the order of numbers in subtraction. |
| How can we correct these mistakes?                    | Using visual aids like number lines and counters can help correct these mistakes.  |

### Summary

Fluently adding and subtracting within 5 is a fundamental skill in kindergarten math. Understanding and correcting common misconceptions is crucial for building a strong mathematical foundation.
