Today I Learned

Today, we learned about using different words and phrases to connect parts of a story or essay. This helps make the writing clear and easy to understand.

Common Stumbling Blocks

Sometimes, students think using the same connecting words over and over is good, but it can make writing boring. Also, they might forget to use connecting words inside paragraphs, not just between them.

Using different transition words helps make writing clear and interesting. For example, in a story, you might use 'then' to show what happens next, or 'because' to explain why something happens. This makes it easier for people to understand your ideas.
