

Phonics and Word Analysis Skills

Today's Standard

1.RF.3 - Know and apply grade-level phonics and word analysis skills in decoding words.

Real-World Applications for this Standard

Reading simple sentences in storybooks; Identifying and sounding out words in environmental print (e.g., signs, labels); Playing phonics-based games and activities; Writing and decoding simple words in classroom activities; Using phonics skills to read aloud to peers or family members

Today I Learned

Today, we learned about phonics and word analysis skills. This means knowing how letters and sounds work together to read words.

Common Stumbling Blocks

Sometimes kids think that letters always make the same sound, but they don't. Also, they might think they can only read words they've seen before, but they can use phonics to read new words too.

Quiz Me

- What sound does the letter 'c' make in 'cat'?
- Can you find a word that starts with 'b'?
- What sound does 'a' make in 'apple'?
- Can you read this word: 'dog'?
- What letter makes the 's' sound in 'sun'?

Help Me

Phonics helps us understand how letters and sounds work together to read words. For example, when you see the word 'cat,' you can sound out each letter to read the word. This helps us read books, signs, and even write our own stories!
