

Inflectional Endings

Today's Standard

1.RF.3f - Read words with inflectional endings.

Real-World Applications for this Standard

Reading storybooks with inflectional endings (e.g., -s, -ing, -ed); Writing sentences using words with inflectional endings; Identifying inflectional endings in daily reading materials such as signs and labels; Using inflectional endings in spoken language during classroom discussions

Today I Learned

Today we learned about reading words with inflectional endings like -s, -ing, and -ed. These endings help us understand how words change to show different times or amounts.

Common Stumbling Blocks

Sometimes kids think that adding an ending changes the whole word. They might also have trouble saying the endings correctly. Practice can help with both!

Quiz Me

- What is an inflectional ending?
- Can you give me an example of a word with -s?
- What does -ing do to a word?
- How does adding -ed change a word?
- Can you read this word: jumping?

Help Me

When we add endings like -s, -ing, or -ed to words, it helps us know if something happened in the past, is happening now, or if there is more than one thing. For example, 'jump' becomes 'jumping' to show it is happening now.
