

Understanding Irregular Plural Nouns

Today's Standard

2.L.1b - Form and use frequently occurring irregular plural nouns (e.g., feet, children, teeth, mice, fish).

Real-World Applications for this Standard

Reading storybooks with irregular plural nouns; Writing sentences using irregular plural nouns; Playing matching games with singular and plural forms; Creating flashcards for irregular plural nouns; Identifying irregular plural nouns in everyday conversations

Today I Learned

Today, we learned about irregular plural nouns. These are special words that change form when they mean more than one. For example, 'foot' becomes 'feet' and 'child' becomes 'children'.

Common Stumbling Blocks

Some kids think that all plurals just add 's' or 'es', but that's not always true. Also, some kids think irregular plurals are random and can't be learned easily. We can help by showing patterns and using examples.

Quiz Me

- What is the plural of 'foot'?
- What is the plural of 'child'?
- How do you make 'tooth' mean more than one?
- What is the plural of 'mouse'?
- How do you change 'fish' to mean more than one?

Help Me

Irregular plural nouns are special words that change in different ways when they mean more than one. For example, 'foot' changes to 'feet' and 'child' changes to 'children'. We can see these words in books and use them when we talk about more than one thing.
