

## Spelling Patterns in Writing

### Today's Standard

2.L.2d - Generalize learned spelling patterns when writing words (e.g., cage badge; boy boil).

### Real-World Applications for this Standard

Writing sentences using new words with similar spelling patterns.; Reading books and identifying words with learned spelling patterns.; Creating word lists that follow the same spelling rules.; Playing spelling games that reinforce pattern recognition.; Writing short stories using words with similar spelling patterns.

### Today I Learned

Today, we learned about spelling patterns. These are rules that help us spell words correctly, like changing 'cage' to 'badge' or 'boy' to 'boil'.

### Common Stumbling Blocks

Sometimes, kids think all words that sound the same are spelled the same way. Another mistake is thinking spelling rules always work the same. But English has lots of exceptions!

### Quiz Me

- Can you tell me a word that changes like 'cage' to 'badge'?
- What happens to 'boy' when it changes?
- Why are spelling patterns important?
- Can you think of a word that does not follow the spelling rules?
- What can we do to remember tricky spelling words?

### Help Me

Spelling patterns help us know how to write words. For example, 'cage' becomes 'badge' because they follow the same rule. We use these patterns to read and write better. Some words are tricky and don't follow the rules, so we need to practice and remember them.
