

## Collaborative Digital Writing

### Today's Standard

2.W.6 - With guidance and support from adults, use a variety of digital tools to produce and publish writing, including in collaboration with peers.

### Real-World Applications for this Standard

Using a tablet to write a story with a classmate.; Creating a class blog with contributions from each student.; Publishing a class newsletter using a word processor.

### Today I Learned

Today, we learned how to use digital tools to write and share stories with our classmates.

### Common Stumbling Blocks

Some students think digital tools are only for typing. Others think that when we work together, one person does all the work. But we can use digital tools for many writing activities, and everyone should help out when we work together.

### Quiz Me

- What can we use digital tools for?
- How can we work together when writing?
- What should everyone do in a group project?
- Can we use digital tools for more than typing?
- Why is it important to share our work?

### Help Me

We use digital tools to write stories and share them with friends. This helps us learn to work together and use computers to make our writing better.
