

Information Gathering and Note-taking

Today's Standard

3.W.8 - Recall information from experiences or gather information from print and digital sources; take brief notes on sources and sort evidence into provided categories.

Real-World Applications for this Standard

Researching a topic for a class project; Writing a report based on library books and online articles; Creating a presentation using gathered information; Organizing notes for a science experiment; Preparing for a class debate by gathering and sorting evidence

Today I Learned

Today, we learned how to gather information from books and websites, take notes, and organize what we find into categories.

Common Stumbling Blocks

Sometimes, kids think they need to remember everything without taking notes, which can be hard. They might also think all information is important, but it's not always true.

Quiz Me

- What is the main idea?
- How do you gather information?
- What is one way to take notes?
- Why do we sort evidence?
- How do you know if information is important?

Help Me

When you gather information for a project, you can use books and websites. Write down important points and organize them into groups. This helps you understand and remember better.
