

Accurate Text Quoting

Today's Standard

5.RI.1 - Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.

Real-World Applications for this Standard

Analyzing historical documents; Interpreting scientific reports; Understanding news articles; Researching for school projects

Today I Learned

Today, we learned how to quote accurately from a text and make inferences based on what we read.

Common Stumbling Blocks

Some students think they only need to quote parts of the text that are directly related to their point. Others think that making inferences means guessing without using the text.

Quiz Me

- What does it mean to quote accurately?
- How do you make an inference?
- Why is it important to use the exact words from the text?
- What is a common mistake when quoting?
- How can you support your inference?

Help Me

Quoting accurately means using the exact words from the text to explain what it says. This helps us understand the text better and make good guesses about what it means.
