

Interdisciplinary Writing Skills

Today's Standard

6-8.WHST.3 - (See note; not applicable as a separate requirement)

Real-World Applications for this Standard

Writing a research paper on a historical event.; Creating a scientific report based on an experiment.;
Developing technical instructions for a DIY project.

Today I Learned

Today, we learned about writing skills that help in history, science, and other subjects. It's important to learn how to write differently for each subject.

Common Stumbling Blocks

Sometimes, kids think they can write the same way for all subjects. They also might forget to give credit to sources in science or history. These are common mistakes.

Quiz Me

- What is interdisciplinary writing?
- Why do we need to change our writing style?
- Why is it important to cite sources?
- Can you name a subject where you need to cite sources?
- How can we practice writing for different subjects?

Help Me

We use writing to tell stories, explain science, and give instructions. Learning to write differently for each subject helps us share ideas clearly. For example, writing a science report is different from writing a history paper.
