

Figurative Language and Word Nuances

Today's Standard

6.L.5 - Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

Real-World Applications for this Standard

Interpreting idioms in conversation; Analyzing metaphors in literature; Understanding wordplay in advertisements; Recognizing synonyms and antonyms in writing; Decoding puns in jokes

Today I Learned

Today, we learned about figurative language, word relationships, and how words can have different meanings. This helps us understand stories and talk about things in interesting ways.

Common Stumbling Blocks

Sometimes, kids think that figurative language means exactly what it says, but it's more like a fun way to say something. Also, they might think words only have one meaning, but words can mean different things in different sentences.

Quiz Me

- What is a metaphor?
- Can you give me an example of a simile?
- What does 'nuance' mean?
- Can you tell me a word that has more than one meaning?
- Why is it important to understand figurative language?

Help Me

Understanding figurative language helps us read stories better and talk about things in fun ways. For example, saying 'it's raining cats and dogs' means it's raining a lot, not that animals are falling from the sky. Knowing different meanings of words helps us understand what people mean when they talk.
