

Understanding Multiple Perspectives

Today's Standard

6.SL.1d - Review the key ideas expressed and demonstrate understanding of multiple perspectives through reflection and paraphrasing.

Real-World Applications for this Standard

Class discussions where students paraphrase their peers' points; Debates where students summarize opposing viewpoints; Group projects that require reflection on different perspectives; Writing assignments that involve paraphrasing different viewpoints; Peer review sessions where students reflect on each other's ideas

Today I Learned

Today, we learned about understanding different ideas and explaining them in our own words.

Common Stumbling Blocks

Some kids might think that paraphrasing is just saying the same thing in different words, but it's about showing you understand. Others might think that understanding different ideas means you have to agree with them, but it just means you recognize them.

Quiz Me

- What does it mean to paraphrase?
- Why is it important to understand different ideas?
- Can you tell me what you learned from your friend today?
- How can you show you understand what someone else said?
- Do you have to agree with everyone to understand them?

Help Me

When we understand different ideas and explain them in our own words, we get better at talking and thinking. For example, if your friend tells you a story, you can tell it back in your own way to show you understand.
