

## Textual Evidence Analysis

### Today's Standard

9-10.RI.1 - Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

### Real-World Applications for this Standard

Analyzing news articles for bias; Interpreting historical documents; Evaluating scientific studies; Critiquing literature reviews

### Today I Learned

Today in English class, we learned how to find and use strong evidence from texts to support our ideas and understandings.

### Common Stumbling Blocks

Some kids think any evidence is good enough, but it needs to be strong and relevant. Others think they don't need evidence for their guesses, but they do.

### Quiz Me

- What is evidence?
- Why do we need evidence?
- What is an inference?
- How do you find evidence?
- Can you show me an example of strong evidence?

### Help Me

When you read something, it's important to find strong parts of the text that help explain your ideas. This helps you understand better and show others why you think what you do.
