

## Organizing and Presenting Information

### Today's Standard

9-10.WHST.2a - Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.

### Real-World Applications for this Standard

Creating a research paper with headings and subheadings.; Designing a science project report with tables and figures.; Developing a historical analysis with multimedia elements.

### Today I Learned

Today, we learned how to introduce a topic and organize information using headings, graphics, and multimedia to make it easier to understand.

### Common Stumbling Blocks

Some students might think that adding pictures and videos is not important. Others might think just listing information is enough. Both are not true.

### Quiz Me

- What should you use to make your writing easier to follow?
- Why are pictures and videos important?
- What is a heading?
- How can you plan your writing?
- What mistake do some students make with organizing information?

### Help Me

When writing, it's important to organize your ideas so people can understand them better. Using headings, pictures, and videos can help make your writing clearer and more interesting.
