

Counting to 100 by Ones and Tens

Today's Standard

K.CC.A1 - Count to 100 by ones and by tens.

Real-World Applications for this Standard

Counting the number of students in a class by ones; Counting groups of ten objects such as pencils or blocks; Counting steps while walking to reach 100; Counting pages in a book by tens; Counting days on a calendar by tens

Today I Learned

Today, we learned how to count to 100 by ones and by tens. This helps us understand numbers better and get ready for more math.

Common Stumbling Blocks

Some kids might think they can skip numbers when counting by tens. Others might mix up the order of numbers like 20, 30, and 40. Using songs and number lines can help.

Quiz Me

- Can you count to 10?
- What comes after 10 when counting by ones?
- Can you count by tens to 100?
- What number comes after 20 when counting by tens?
- Can you show me how to count to 30 by ones?

Help Me

Counting to 100 is like counting steps when you walk or counting toys in groups. It helps us see patterns in numbers and get ready for more math learning.
