

Question Words Usage

Today's Standard

K.L.1d - Understand and use question words (interrogatives) (e.g., who, what, where, when, why, how).

Real-World Applications for this Standard

Asking for directions: 'Where is the library?'; Understanding stories: 'Who is the main character?'; Daily routines: 'When is lunch time?'; Problem-solving: 'Why is the sky blue?'; Learning new skills: 'How do you tie your shoes?'

Today I Learned

Today we learned about question words like who, what, where, when, why, and how. These words help us ask and answer questions.

Common Stumbling Blocks

Sometimes kids mix up question words, like using 'who' instead of 'where'. Another problem is thinking all questions can be answered with 'yes' or 'no'. We need to help them understand the right words and give more detailed answers.

Quiz Me

- Who is your teacher?
- What is your favorite toy?
- Where do you live?
- When is your birthday?
- Why do you like ice cream?

Help Me

Question words help us ask and answer questions in our daily lives. For example, 'who' is for people, 'where' is for places, and 'why' is for reasons. Practice using these words when you talk to each other.
