

Sentence Construction Activities

Today's Standard

K.L.1f - Produce and expand complete sentences in shared language activities.

Real-World Applications for this Standard

Creating simple stories together in class; Describing daily routines during circle time; Building sentences with word cards; Playing sentence formation games; Using picture prompts to create sentences

Today I Learned

Today we learned how to make and expand sentences. We practiced making sentences together and adding more words to make them better.

Common Stumbling Blocks

Sometimes kids think that sentences only need a few words, or that they don't need to make sense. We help them learn that sentences need to be complete and make sense when we read them.

Quiz Me

- What is a sentence?
- Can you make a sentence about your favorite toy?
- Why do we add more words to a sentence?
- What happens if a sentence doesn't make sense?
- Can you read your sentence out loud?

Help Me

A sentence is a group of words that tells a complete idea. We use sentences to talk about things we do, see, and feel. By making good sentences, we can tell better stories and share our thoughts clearly.
