

### Real-Life Word Connections

#### Today's Standard

K.L.5c - Identify real-life connections between words and their use (e.g., note places at school that are colorful).

#### Real-World Applications for this Standard

Identifying colors in the classroom; Describing objects in nature; Naming items in the grocery store; Discussing family members and their roles; Recognizing different animals at a zoo; Talking about different types of weather

#### Today I Learned

Today, we learned how to connect words to their real-life uses. For example, we talked about colorful places at school and how to describe them.

#### Common Stumbling Blocks

Sometimes, kids think words only have one use, but they can be used in many ways. Another problem is thinking all descriptive words mean the same thing, but each word is special.

#### Quiz Me

- Can you name something colorful in our house?
- What word would you use to describe your favorite toy?
- Can you think of a place that is very bright?
- What animals did we see at the zoo?
- How would you describe the weather today?

#### Help Me

We are learning how to use words to describe things we see every day. For example, we can use the word 'bright' to talk about the sun or a light in our house. This helps us talk about what we see and understand better.
