

Phonics and Word Analysis

Today's Standard

K.RF.3 - Know and apply grade-level phonics and word analysis skills in decoding words.

Real-World Applications for this Standard

Reading simple sentences in storybooks.; Recognizing common sight words in environmental print (e.g., STOP signs).; Decoding words on classroom labels and charts.; Sounding out words during guided reading sessions.; Writing words using phonetic spelling during writing activities.

Today I Learned

Today, we learned about phonics and word analysis. These skills help us read words by understanding the sounds letters make.

Common Stumbling Blocks

Sometimes, kids think each letter has only one sound, but that's not true. Also, they might guess words by looking at pictures instead of sounding them out.

Quiz Me

- What sound does the letter 'A' make?
- Can you find the letter 'B' in this word?
- What is the first sound in the word 'cat'?
- Can you sound out this word for me?
- What happens when you put 't' and 'h' together?

Help Me

Phonics helps us read by matching letters to their sounds. For example, we see the word 'cat' and know it starts with the 'c' sound. This helps us read signs, books, and even labels at home.
