

## Illustrations and Story Relationships

### Today's Standard

K.RL.7 - With prompting and support, describe the relationship between illustrations and the story in which they appear (e.g., what moment in a story an illustration depicts).

### Real-World Applications for this Standard

Discussing pictures in a storybook during read-aloud sessions; Creating a simple storyboard with illustrations and captions; Drawing a scene from a favorite story and explaining it; Matching illustrations to corresponding story events in a classroom activity

### Today I Learned

Today we learned how pictures in a storybook help us understand the story better. We talked about how illustrations show what is happening and help tell the story.

### Common Stumbling Blocks

Sometimes, kids might think pictures are just for decoration or that they must match the words exactly. But pictures can show more than what words say, like feelings and actions.

### Quiz Me

- What did we learn about pictures in a story today?
- How can a picture help tell a story?
- Can a picture show something that isn't written in the words?
- Why are pictures important in a storybook?
- What can we learn from a picture in a story?

### Help Me

Pictures in storybooks help us understand the story by showing what is happening. For example, a picture can show a character's feelings or actions that the words might not say directly. This helps us understand the story better.
